

## Hosted Microsoft® Exchange

Exchange without the Headaches

### Work from Anywhere, Anytime.

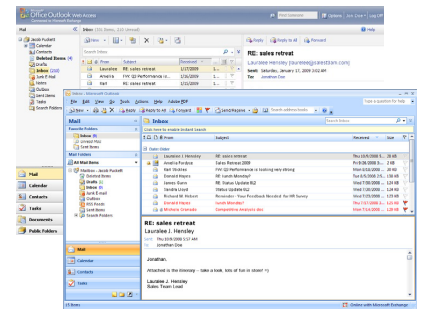

Exchange email users get full access to their email folders, contacts, and calendars from Microsoft Outlook, on any web browser, or mobile device (iPhone®, Android® or iPad®). Changes made to emails, contacts or calendars are kept up to date when accessed from another device.

Exchange makes collaborating with co-workers, customers, and suppliers easy. Shared calendaring allows users to easily schedule meetings with co-workers and eliminates scheduling conflicts for resources such as rooms and equipment.

PyroGraphics gives you all of the functionality of a dedicated Exchange server for a fixed, monthly cost.

### For Your Users

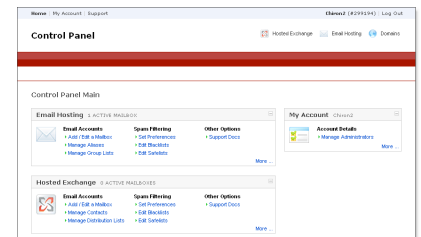

- 100GB mailboxes
